

# Village of St Anne

## President's Report

March 12, 2012

1. **New well** – I have not heard anything in the last couple of weeks from Tyson Engineering on the status of the well. Earlier this month when I spoke with Neil he said the well was supposed to be running by this time. I have a call into Neil to check the status of this project. It has to be any day now. I'll let you know what I hear.
2. **Dollar General Store** – Nothing new on this topic.
3. **Economic Development Committee** – This group held a meeting a couple of weeks ago. One of their projects for this summer will be updating our trash receptacles in the downtown area. They are looking at us getting new black trashcans in which they want to have them placed inside decorative iron guards. These guards will be much like the tree guards that they did last year. What we talked about was the Village purchasing the trashcans and they will build the guards. I have asked them to present a price for new square large trashcans at the next board meeting.
4. **Iron filtration Grant** – Neil has submitted the grant paperwork for this project. It will be 3-5 months before we hear anything back from the State on this project. I'll let you know as soon as we hear anything.
