President's Report

August 10, 2015

- 1. New Village Hall/Community Center** –No Movement on this project at this time. I need to get back with Mike VanMill and see where we are.
- 2. Building at 167 W Station Street** – I have submitted the paperwork to secure this building. The County Board will have to agree to release the building to us. I contacted the Counties Trustee again a couple of weeks ago. To date I have not received any feedback. As soon as I hear anything I'll let you know.
- 3. Home on 285 S Sheffield St.** – I contacted Craig Schiffler again about this house. He stated that they do hold the loan on this house, but not the title. He stated that he spoke with his superiors and they have no interest in this house. They will not stand in our way if we need to demolish this house. I asked that his department put this in writing. He didn't seem like he wanted to, but he said he will check and call me back. In the meantime I have asked Ken to see who holds the title for this house at this time. I have a feeling the County might have the title do to unpaid taxes.
- 4. Cellular Utility Pole** – A Utility Company called Mobility has contacted us. They are looking to install one standard size utility pole with a 3-foot antenna on top of it. These poles are for improvement of cellular service in outlying areas. The person who called me was Eric Lawson. He stated that his company is a registered Utility Company and they have the right of way to install these poles. Eric is not sure yet where this pole will be placed. He's just giving us the heads up that they will be contacting us with more information.
