President's Report

July 16, 2012

- 1. New well** – In chatting with Simon, he has indicated that the funds have been approved for the additional repairs that need to be completed to the generator. Once the parts come in the final repairs will be completed by R&R. Once those are done, we will do a final review of the new well house before we take ownership of the building.
- 2. Park Fun-Raisers** – The Park Fun-Raisers group had a successful event. They raised over \$4000.00. The event was hampered somewhat by the hot weather. Keeping people from coming out before the fireworks. However, the event did very well after the fireworks. A good size crowd stayed after and enjoyed the music, food and refreshments.
- 3. Village Park** – One issue that has still not been completed is the re-wiring of electricity at the Village Park that our vendors use during Pumpkin Fest. I have asked Ken to get a quote from Dennis Bonvallet to do these necessary repairs. My plan is to have this quote in time for the next meeting so we can address this issue.
