## **President's Report**

August 13, 2012

- 1. New well** – Simon has informed me that the parts for the generator arrived last week and that R&R should them installed by the end of the week.
- 2. Beautification Committee** – Duane Meier is currently working on the grates for the new trashcans. I have not seen them yet, but Carol has told me that they look great. We need to have Don and Gary call Julie to locate the areas that the trash cans will be placed. Carol has marked the areas on the sidewalk. Again, I would like to thank Duane Meier for working on the grates and the committee for all their hard work this past summer.
- 3. Village Park** –Dennis Bonvallet has provided us with a quote for fixing this wiring problem at the Village Park. Darrin will be presenting this quote to the board. (I want to thank Sue Bonvellet for getting Dennis to provide us this quote.)
- 4. Negative incidents in the Village** – First, I would like to thank Steve and his fellow officers for their hard work over the last couple of weeks. The stabbing and the standoff that we incurred over the last two weeks have been taxing on him and his officers. My personal observation during these two incidents, demonstrated to me that we have very professional and fine officers and they need to be commended for the work they have done in these trying times. They all represented the Village in a first class way and I was very impressed with their interaction with the assisting agencies. Second, I would like to do is hold a Police Committee meeting this month to go over these two incidents and see if there is anyway that we can work to improve our response and continue to make sure that our citizens live in a safe environment. Again, thank you Steve and your entire department.
