

Village of St Anne

President's Report

August 8, 2011

1. **Park Committee** – I've received another complaint concerning the conditions of the park and the pavilion from one of our renters. I would like for the Park Committee to meet and come up with a plan to address this issue. I would also like to have a timeline on when the pavilion repairs can take place. It would be great if we can have that fixed before the Pumpkin Fest.
2. **Weed Control** – We need to have a solution to the weed growth in the park and in the sidewalks. I have asked Don Leveque to look into what it would take to getting certified to handle this problem. Once I get that information back from him I will suggest that we get him certified to handle the weed spaying.
3. **Mayor's Association Dinner** – I would like to thank everyone who attended this event. It's always a good experience to meet with the local Mayors and discuss issues that face all of the local Villages and Cities.
4. **Building and Zoning Committee** – We need to have a follow up meeting to continue the discussion of implementing our building Codes. In the mean time I will be meeting with Mayor Epstein from the City of Kankakee to discuss ways to work with them on some funding and sharing of manpower. I'll let you know what happens.
5. **Village Water Infrastructure** – Now that we have begun the process of replacing fire hydrants I would like to start looking at ways to start the planning for the replacement of our water mains. This is probably the next largest issue we face and it's not going to go away. We're going to have to think outside the box to find a solution for this issue. Neil Piggush and I have had some conversations about this project already and we have some possible solutions. I will be setting up a committee meeting with the Finance Committee this month.
