New IMH Medical Group Primary Care Clinic Coming Soon to St. Anne, Illinois

Watseka, IL - Iroquois Memorial Hospital is proud to announce the expansion of our IMH family practice medical group with the opening of a new clinic in downtown St. Anne, IL on July 18. Our primary care clinics, also located in Gilman, Kentland, Milford, and Watseka, provide quality family healthcare for all ages such as wellness exams, routine physicals, and unexpected illness visits.

“Being the largest rural healthcare provider in the area means taking care of our neighbors, and IMH sees the need to expand primary care services into the Northern region of our community. Like our other clinics, this location will provide care for your whole family and will also be your personal link to other specialized providers here at IMH for any health concerns needing further evaluation” says Mike Tilstra, IMH CEO.

To stay up to date as more details come available, please visit imhrh.org or follow Iroquois Memorial Hospital on Facebook at [Facebook.com/imhrh](https://www.facebook.com/imhrh).

About Iroquois Memorial Hospital

Serving more than 50,000 people annually in east-central Illinois and west-central Indiana, Iroquois Memorial Hospital (IMH) is a 25-bed hospital located in Watseka, Illinois. The hospital facility is comprised of clinical and diagnostic services dedicated to providing high quality health care services to the community. These services include, but are not limited to an Emergency Room, full service OR suites, an inpatient care unit, therapy services, advanced medical imaging, Home Health, and Hospice Care. The hospital operates rural health clinics in Watseka, IL; Gilman, IL; Milford, IL; and Kentland, IN. The hospital also operates a skilled nursing

facility, Iroquois Resident Home, which is attached to the hospital property. Visit imhrh.org, [Facebook.com/imhrh](https://www.facebook.com/imhrh), and [Google.com/iroquoismemorialhospital](https://www.google.com/iroquoismemorialhospital) for more information.
