**Building Inspector: David Pomeranski, Electrical Inspector: Dennis Bonvallet**

## **President's Report**

**February, 13 2023**

- 1. Agnus Klonowski House** –I heard from Dawn last week. They still have 2 members they are trying to contact. One of which they can't locate. She was working with her lawyer to see what can be done if they can't locate this person.
- 2. Electronic Sign** – We still need to get going on this project. It would be very helpful in communicating to our residents when we have a water issue or other communications. I have sent this proposal to the Building Committee for their thoughts and possible placement of a sign.
- 3. Water Project Phase 1** – This first stage of Guertin Street has moved right along. Thankfully, the weather is cooperating for work to continue at a good pace. The first main was to be hooked up today, but it will not be running water for now. Once that is completed, we plan to go ahead and start on the Route 1 section. We still have to back to the Guertin Main and hook up the leads and put in the Fire Hydrants, but that will be done at a later time.
- 4. TIF Meeting** – No new movement on this project. I will keep you posted.
- 5. New Concessions Building.** – I would like the Park's Committee to have a meeting to start to looking at options for a new Concessions Stand/Storage building at the park. We need to start devising an economical plan to replace the old building.
- 6. Kankakee Historic Preservation Committee** – I was contacted by the KHPC group this month. They are interested in have the Village of St Anne registered as a Historical District.

From what I understand, this wouldn't bind us on any one house or building, but we would be able to designate a building as a Historical if we ever wanted to. They sent me a power Point today that I will have Chris send out to all of you. Just read through it and let me know your thoughts. They would like to make a presentation to us in the near future.
